- **Languages** : C, Java, HTML, CSS, JavaScript,
- **Database** : SQL, MongoDB
- **Framework** : Bootstrap
- **Version Control** : Git, GitHub
- **Soft Skills** : Collaboration, Communication, Planning, Teamwork, Leadership

PROJECTS

My Portfolio

- Description: Designed a responsive and interactive personal portfolio website that showcases my skills and projects.
- Technologies Used : HTML, CSS, JavaScript
- Key Features: Smooth animation and scrolling effects, Responsive design for all devices.

Wanderlust – Airbnb Clone (MERN Stack)

- Built an Airbnb-like MERN stack app for managing rental property listings.
- Implemented CRUD operations with title, description, price, images, and location.
- Designed a responsive UI using EJS and Bootstrap for smooth user experience.
- Developed RESTful APIs with Express.js & MongoDB and added data seeding scripts.

Shopping Management System:

- A GUI-based E-commerce system built with the MERN Stack for easy shopping.
- Includes product browsing, cart & order management, search/filters, secure JWT authentication with role-based access, and a responsive React.js UI for a smooth shopping experience.
- Technology Used: Built with the MERN Stack (MongoDB for data storage, Express.js & Node.js for backend APIs, and React.js for dynamic frontend).

LANGUAGE

- English
- Hindi
- Urdu

INTEREST

- Web 3.0, Augment Reality, Virtual Reality & Reading
